

Tom Bowman is one of the premier interpreters of global change, climate and energy science, and green business strategies. He is a social entrepreneur, advisor, communication strategist, and science interpreter.

As President of Bowman Design Group, he led award-winning climate change exhibition designs for the Marian Koshland Science Museum of the National Academy of Sciences and Birch Aquarium at Scripps, the *Ocean on the Edge* exhibition at the Aquarium of the Pacific, and energy efficiency exhibitions for electric utility companies across the country.

As a consultant with Bowman Global Change, he contributed to the federal *Climate Literacy* education guide and organized a groundbreaking meeting to assess public attitudes about global warming and authored its influential summary report.

Bowman founded the Climate Solutions Project to develop public intervention strategies with a blue-ribbon team of experts in climate science, social science, economics, ethics, and social marketing. He writes a monthly column on green business strategies and received an inaugural Small Business of the Year award from the California Air Resources Board in 2009 for generating an annual cost savings while slashing his firm's greenhouse gas emissions by 65% in just two years.
